REPUBLICAN

STATE CONVENTION.

At the called meeting of the Republican State Central Committee of Nevada, held at Virginia, March 14, 1882, it was resolved that a State Convention should be held at

Reno, Washoe County, September 4th, 1882.

And that the apportionment of delegates from the several counties of the State to said Convention should be as follows:

Churchill	1	Douglas	1
Esmeralda	1	Elko	1
Eureka	2	Humboldt	4
Lander	6	Lyon	4
Lincoln	4	Nye	1
Ormsby	7	Storey	25
Washoe	8	White Pine	4
Total	57		

The following resolutions were also adopted:

Resolved, That the delegates to the State Convention be elected at Primaries, and that the various County Central Committees be requested to call said Primaries on Saturday, August 19th, 1882.

Resolved, That if a vacancy should occur in any delegation after the Primaries are held, said vacancy shall be filled by the remaining delegates.

Resolved, That any county may elect delegates to the State Convention at County Convention, the members of which shall have been elected at regular primaries, held on or before the said 19th of August, 1882.

The following test was adopted and recommended for use at the Primaries: "Are you a Republican, and will you support the nominees of the Republican State Convention?"

A gentleman traveling on a train of cars recently said to the conductor: "Suppose the brakes should give way, where would we go to?" The conductor remarked that it was impossible for them to give way. But the gentleman again asked the same question, when the conductor replied: "It all depends on what your past life has been."

PREMATURE RESURRECTION.

How Chinese Prepare the Bones of Deceased Celestials for the Return to China.

Our readers are all aware that one of the dearest objects of a Chinaman's life is to be able to save money enough to have a big funeral and to have his bones sent back to China. They believe that an unpardonable sin would be committed if they were allowed to be permanently buried anywhere outside of the Flowery Kingdom. When a Mongolian agrees with the Six Companies to hire himself out as a slave for a term of years, one of the chief regulations is that they shall ship his bones back in the event of death. It is not necessary to send the flesh, for they believe that Confucius knows them well enough by their bones, and an important saving in expressage is effected by allowing all flesh to rot off before the carcass is resurrected. Among the wealthy the bodies are sent back to China soon after death, while others are buried here and remain until the flesh has dropped off the bones, and then the bones are sent. From the coffin are taken every bone, finger and toe nail, and being carefully numbered and washed are placed in sacks to be shipped by express to China. The Chinamen who do this work are so conversant with the anatomy of man that they can tell just how many bones, nails and teeth it requires to make up the complete list requisite to each body, and they are extremely careful that not even the smallest bone is missing. After having them cleansed, then comes the work of numbering so as to have every piece properly marked with ink in Chinese characters. They are also very careful that the bones of one individual should not be mixed with those of another, for you can readily imagine how much it would retard Confucius in his work of putting them together in the sweet by and by. The remains of females, except among the wealthy, are allowed to remain here, it not being considered worth while to send them back. Occasionally they exhume a "stiff" that is not yet "ripe." This is again buried and allowed to remain until the fall process of rotting has occurred. A Caucasian hasn't a stomach stout enough to do this work, but the Chinese go at it with a sublime indifference for smell and even laugh and eat while the work goes on. A fear of being caved on and being buried so deep that their remains cannot be recovered is what prevents them from working in deep mines, but they have no hesitation in seeking employment in gravel mines or anywhere else near the surface. Once they get enough money on hand to ensure the home passage for their bones, they become reckless of life and seem to court death just for the purpose of using the money.

Shooting Scrape.

At about midnight night before last Dan O'Keefe was shot in the thigh by a man from Virginia City named Tim Desmond. There are two very different accounts of the affray and as it is not our province to act as judges we give both: Desmond and a friend, came down from Virginia Wednesday night in a buggy, arriving here at about 12 o'clock. They went down into the alley and had some difficulty with O'Keefe. Each party accuses the other with being the cause of the trouble. Be this as it may it resulted in O'Keefe getting a bullet hole through the fleshy part of the thigh, causing a wound which will not be very troublesome, for no vital parts are touched. As soon as Desmond shot, and before he ascertained whether he had struck Dan or not, he ran down to the river, while his friend rushed to the stable, got the team and in a few minutes they were on their way back to the Comstock. A charge of assault with a deadly weapon with intent to kill has been entered against Desmond and a warrant issued for his arrest. O'Keefe was resting well yesterday and will be around in a few days if he does not have a backset. Constable Avery telegraphed to Virginia to have Desmond arrested, and last evening received a reply that his man was in jail. He will go after him this morning.

Journal Files.

There are several complete files of the DAILY and WEEKLY JOURNAL. The County Recorder has one, which embraces a copy of every issue of this paper since its beginning—over eleven years ago. Mr. Williams takes great pains to keep it complete and has it nicely bound by years. The State Library has another complete volume. We have two volumes—one for the office and one personal. These books are of great value—containing as they do a succinct history of our town and State for eleven years. Every year adds to their value.

News for the Boys.

Late mail advices from China state that the opium crop of the present season promises to be twice as large as that of 1891, which was larger and better in quality than that of the preceding year. In 1890 the yield of Chinese grown opium was placed at 400,000 piculs.

Newspaper Banners.

The Austin Revelle hits the nail squarely on the head when it says "the most exacting and unprofitable readers, especially of a home paper, are a certain class of individuals who do not take or pay a cent for it. They generally wait about saloons, stores, or other places of business for the carrier to come around, and are the first to get hold of the paper. After reading it entirely through, advertisements and all, monopolizingly depriving others of a chance to read it, they are the only ones who are liable to carelessly throw it aside, declaring that 'There's nothing in it,' or if they happen to see some item of interest which they want, they will watch their chance to flip the paper into their pocket. Thus the man who pays for it often cannot get a chance to read it at all. Such newspaper banners as are referred to are more plenty in other communities than they are in Austin, but there are more than one even here who can and will read the application of this little sketch to himself."

Personal.

Whitlaw Reid, editor of the New York Tribune, is with his father-in-law D. O. Mills. This is Mr. Reid's first visit to the Pacific coast.

Ah Gun, a Reno Chinaman, has been committed to the Insane Asylum, being the first since the removal from Stockton.

On Friday night John Squires made his last trip on the Reno and Greenville stage line. He will now go on the Oroville and Susanville route, still remaining in the employ of Messrs. Hammond & Wilson, who are the contractors.

Tell the News.

Don't forget if anybody dies, gets married, runs away, steals anything, builds a house, makes a big sale, breaks his leg, or gets the senses kicked out of him by a mule, or does anything that is any way remarkable, and you have reason to believe you know as much about the occurrence as any body else, don't wait for some other person to report it, or trust to us to find out by instinct, but come and tell us about it, or send the fact on a postal card. See if you cannot improve and let us have every item of news that transpires in your neighborhood.

That Postal Change.

A wrong impression seems to prevail concerning that postal regulation regarding delinquent postage. Postmaster Jamison informs us that it does not effect any place but those cities where they have a city delivery. It was found impossible to collect the additional postage by the letter carriers and to compel a payment the carriers carry a notification to the parties and when they pay what is due they are entitled to their letters. In all other offices the regulations remain as usual—that is, pay the Postmaster when you receive your mail.

A Dead Doctor.

Dr. George Atchinson died at Steele's residence, Glendale, yesterday morning. He had been sick in Virginia City for some time and came down here several months ago for the benefit of his health, but his age—71 years and 6 months—was so great that he was not able to recover. He was a practicing physician on the Comstock for many years. He will be buried this afternoon at 2 o'clock, under the auspices of Reno Lodge No. 13, F. & A. M. Members of the order from Virginia City, where deceased belonged will be in attendance.

District Court.

The lien suit of Parker, et al. vs. the N. & O. R. R. was called up in the District Court yesterday morning, and, on motion of Mr. Lindsay, attorney for plaintiffs, was dismissed without prejudice. Another action on the same lien will be commenced to-day. Parties interested in the lien must not be misled because of the published item that the case was dismissed.

Adjourned until the 8th at 8 o'clock A. M.

Killed by Lightning.

W. Leath, Jr., was instantly killed near Honey Lake, last Monday by a stroke of lightning. Joe Grass, who was near him, was knocked down, and was also the team Grass was driving.

Long Race.

Ed Cummings, of Virginia, accepted the challenge made by James Sheehy for a twenty-mile foot race, for \$500 a side. The time, place and other preliminaries are yet to be arranged.

The Artillery.

The Virginia folks made a great fuss because Battery A came down here on the Fourth. In an interview with the officers the Virginia Chronicle learned these facts, which shows that the artillery boys did just right:

Captain Coulter, of the Battery, was the first interviewed, and he said: "We received an invitation from the new militia company in Reno, and also an invitation from the Fourth of July Committee of that place to participate with them on the Fourth. We took no action on the subject until after the committee here in Virginia voted not to have a celebration. Then we voted to accept, providing the Reno committee would furnish the Battery with transportation for men and horses and pay \$100 for firing the national salute morning and evening, being 76 guns. The terms were accepted by the Reno committee previous to the formation of the new Fourth of July Committee here that voted to celebrate, and we considered ourselves in duty bound to parade with the Reno people. In regard to our patriotism I will only say that we have every Memorial Day fired the minute guns at the cemetery and paid for the ammunition out of our own pockets, besides turning out in the procession, and on last Decoration Day we paid our pro rata for the music in addition. A great many people have the idea that the State furnishes the battery with ammunition. This is not so. We have to buy everything ourselves. The State allows the battery \$100 per month for its rent and maintenance. The county pays only its pro rata."

Kinkead's Mill.

Continued operations on Kinkead's new mill only serve to convince all as to its practicability and great value. The wear of the machine is very slight—nothing like as much as with the ordinary stamps. A great step has been made in mining and it will not be long before the grinder will supersede the stamp battery. We hear incidentally that Mr. K. intends to take it to the mining exposition at Denver next month, and while East will introduce it much more generally than he could if he remained here. To see it is to appreciate it and a few hours of practical working will satisfy the most skeptical that it is just what is wanted. Prospectors with one the size of his model would be able to crush all the ore they wanted to. The day of the mortar has passed surely. We confidently expect that it will be rapidly introduced in the mining communities.

Emma Nevada.

H. H. Warne, of Austin, received a letter on Sunday from a lady cousin, who is a professor of music in a college in London. She speaks very highly of the Nevada prima donna, now achieving such triumphs in Europe. The following is an extract:

We had some very bright news the other day of your young friend M'd'lie Nevada. Some friends of ours were in Florence about ten days ago and there was a perfect furor about her, applause the most enthusiastic and prolonged and a perfect snow storm of flowers. They said her voice was lovely and her acting charming and her execution very perfect and herself so modest and ladylike and sweet, they were quite in love with her, and these friends are great travelers and know all the great singers, so their enthusiasm is worth having. She appeared as "Amina" in the opera of "La Sonnambula."

Superintendent Jones of the Northern Belle mine was thrown from his buggy at Candelaria on the Fourth and received injuries from which he died yesterday morning.

The Peavine school is the only one now running. It did not commence until about a month ago and will be continued as long as the money lasts. Miss Frankie Gibbs is the teacher.

Yesterday a mild insane patient named Pat Mallon, who has been treated as a trusty, took a notion to see the sights and came up town. He is a brother of Joe Mallon of Virginia City.

Remember to take a bath at Peckner's to-day. Hot and cold water, and a shower, clean towels, etc.

THE CRADLE.

KLING—In Reno, July 5th, 1892, to the wife of Fred Kling, a son.

Mother! Mother! Mother! Mother!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the little sufferer at once—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle. (Jan 10-15-Su WPAW)

POWDER

Of superior quality, fresh from the mills. It is constantly received and transported into the interior, is delivered to the consumer within a few days of the time of its manufacture, and is in every way superior to any other Powder on Market.

We have been awarded successively

THREE GOLD MEDALS

By the MECHANICS' INSTITUTE and the STATE AGRICULTURAL SOCIETY for the superiority of our products over all others.

We also call attention to our

MERCULES POWDER.

It combines all the force of other strong powders now in use, and the lifting force of the new Blasting Powder, thus making it vastly superior to any other compound now in use.

Containing a full description of this powder can be obtained on application to any of our Agents

YOUNG

WHO may be suffering from the effects of youthful follies or indiscretions, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. Dr. Spinney will guarantee to forfeit \$500 for every case of Seminal Weakness or premature disease of any kind or character, which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty, who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and sometimes small particles of albumen will appear, the color will be a thin milky hue, again hanging to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration to the genito-urinary organs.

Office hours—10 to 4 and 6 to 8. Sundays from 10 till 1 A. M. Consultation free. Thorough examination and advice, \$3.

AYER'S CHERRY PECTORAL

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma,

AND CONSUMPTION.

The few compositions which have won the confidence of mankind and become household words, among not only one, but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, that have won for it a confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds, Consumption, that can be made by medical skill. Indeed, the CHERRY PECTORAL has really robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their fatal effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering, and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it if you for the protection it affords by its timely use in sudden attacks.
